**ADDITIONAL INFORMATION:**

Alexandra trained in theatrical costume design and construction, hat making, mask making, tailoring, fashion design and construction. Extensive and specialist design of period and military costumes. Member of The Society of Chartered Designers (M.S.C.D.)

*"I have just worked with Alex Caulfield on a new BBC 1 Drama, DOCTOR FOSTER, starring Suranne Jones and Bertie Carvel. Alex worked brilliantly with the execs -running all ideas by us, as requested, and being hugely collaborative and efficient. She has fantastic taste and we are delighted with her work."*

Executive Producer **Roanna Benn**

*"Alex is a very talented and hardworking Costume designer who brought her imagination, skill and creativity to a modern day thriller. She worked collaboratively with the Production Designer and Director on a defined colour palette of muted tones with just the occasional flash of distinct colour to perfectly mirror the muted tones of the story. Alex coped admirably with the inevitable late scripts and numerous schedule changes forced upon us by the ever-changing Lake District weather. Alex is a great communicator and calm head of department and I would not hesitate recommending her for any future production".*

Producer **Andrew Benson**

*I had tried to get Alex for a film some years ago but, not surprisingly, she was busy. So I was delighted when she agreed to work on UNKNOWN HEART. It was a very good experience. She has excellent taste and buys accurately - and not extravagantly. Always approachable and practical - and she listened to the whims of this director with his demands for a very particular shade of pink! Politely firm with artistes and very organised with her staff. I look forward to working with her again. Highly recommended.*

Director **Giles Foster**
