"We have known each other and worked together since you did an excellent job as a line producer on our film "Tom and Thomas", directed by Esmé Lammers and starring Aaron Taylor - Johnson and Sean Bean. Recently you have been of great professional assistance with the initial production analysis and prep of our films "Comedy in a Minor Key" and "Capa" and we are happy to have you on board as a line producer for these projects. It is always a pleasure to work with you." **Oscar winning film Producer Laurens Geels**

"I owe you a big, big thank you for the great job you did on the series. It's pretty amazing what we achieved on such a relatively tight budget and that we completed both the drama shoot and the entire series with an underspend. This is largely thanks to you! I don't know yet what I'm going to do next but I hope that you'll be available." **Detlef Siebert, Series Producer. BBC Television**

" You were a marvel on "The Tournament". Only in directorial hindsight do I see how smart a move it was to set up shop in Bulgaria for the principle action for the film. I'm stunning at how much it allowed me to shoot (for so little cost) and the access and relationships you had with such professional crews- helping achieve incredible production value. Never has the dollar been stretched better! Truly, Tournament wouldn't be half the film without you coming on board. Thank you" **Scott Mann, Producer / Director**

"Thanks for being the rock in the production office on "Heretiks". Your eagle eyes on the budget and detailed cost control was invaluable during the shoot and I'm very grateful to you." **Michael Riley, Producer**

"Thanks again for your enormous efforts and we hope to see you soon" **Joost de Vries, Producer**
