**NATIONALITY:** British

**ADDITIONAL INFORMATION** *I had a very enjoyable shoot with Rupert. In addition to recording excellent sound in difficult circumstances, Rupert is a very good, calm presence on set. His approach is always 'can do' and with his resourceful team we achieved very good clear audio for our series of Quacks. I would highly recommend him to any production in the future.* **Andy de Emmony, Director**

*"Rupert's considerable experience and unwavering good humour proved invaluable during some extremely challenging conditions"* **Jim Field-Smith, Director**

*"I loved working with Rupert. Crew and cast adore him. His attitude to the work and his part in being a great 'company' member make him very suitable for an exotic and inevitably testing shoot. Rupert is lovely and brilliant!"*

**Jamie Payne, Director**

Cont.

"I worked with Rupert on a number of occasions and I had a great experience. He was sympathetic to the requirements of the production and had a great energy on set. **Matthew Patnick, LP: Peaky Blinders & the Night Watchman**

"In the nearly twenty years that I've known and worked with Rupert he has never failed to be a really great presence on set. Good humoured and helpful by nature and quiet and head-down when appropriate. I'm always happy when I see his name on my call sheet". **Jake Polonsky BSc. Director of Photography, Sky Atlantic's 'Billions'**

"Rupert was our Sound Recordist for The Eichmann Show. His work was faultless across some very challenging locations - windy roofs, busy beaches, crowded courtrooms - and required minimal ADR in post. He was also fun to work with. **GSOH! I will definitely work with him again" Laurence Bowen, Producer**
