ADDITIONAL INFORMATION: Full Digital Script Supervision using Script E and BlackMagic Capture

NATIONALITY: British

COUNTRIES WORKED IN:

Australia, Brazil, Czech Republic, Croatia, Hungary, Italy, Jordan, Ghana, Japan, USA

"Tessa prepares for the shoot with impeccable accuracy and intuition. Her deep knowledge of the script and all its moving parts resulted in a smooth filming process and her consistently positive support and insightful opinion proved to be invaluable assets. She makes me a better Director." **Director Joss Agnew**

"Tessa is simply incredible: her rapport with actors, discretion, attention to detail and clear and precise relaying of information to the production and being fully conversant with the Script E software, makes Tessa easily a top choice when crewing for a show. It has been a pleasure to work with her for 6 months! Also, she keeps the crew stocked in chewing gum, which is to everyone's benefit." **Producer Michael Ray**

"Tessa has been at the very heart of the creative team and process on The Halcyon. Her eye for dramatic detail and script management skills are invaluable and she constantly provides practical and inspired solutions to the tasks at hand. Tessa is a wonderfully supportive presence on set, develops great relationships with cast and crew. A pleasure to work with."
The Halcyon Eps 1 & 2 **Director Stephen Woolfenden.**

"Tessa has been across all 8 eps of The Halcyon and has supported the directors and me so well. She is an absolute dream, so much so that I cannot imagine ever working with anyone else!" **Producer Chris Croucher**

"I had the pleasure of working with Tessa Kimbell as Script Supervisor on "24:Live Another Day". It was a challenging shoot and Tessa more than rose to the occasion. She is smart, focused, disciplined and pleasant at all times. I recommend Tessa highly and hope to work with her again soon." **Director Milan Cheylov**

Cont.

"I worked with Tessa on The Musketeers this summer for the BBC. She was an absolute joy. We were both new to each other and the programme but from the outset I felt totally at ease with her and confident in her abilities. She is organised, diligent, a team player and has a fantastic sense of humour - she was loved by both cast and crew. I know that when I can, I will insist on working with her again." **Director Sue Tully**

"Tessa is a great asset to any production. She came out to Prague for the Musketeers half way through a long and tough shoot, was a shining example of a top professional who just fitted in and calmly and methodically dealt with the day to day issues on the set, the frequent flurry of amendments and timings on future blocks whilst retaining a sense of humour throughout." **Producer Matthew Bird**

"I have had the pleasure of working with Tessa Kimbell on both 24: Live Another Day and Musketeers 3. She is highly efficient with a calm demeanor and a great sense of humour. I cannot recommend her highly enough and she is a great asset to any production." **Line Producer / UPM Kathy Nettleship**

*"I have worked with Tessa Kimbell on various multi-camera sitcoms and entertainment shows, single camera film and digital shoots and hybrids which include both multi camera and single camera work with complex video effects. Tessa is superb at all the disciplines and is one of the **best script supervisors on the planet**. Her professionalism is of the highest order and she has a complete understanding of the intricacies of shooting, continuity and the information that needs to be fed to post production. As a result not only do I value her expertise but editors and post-production staff hold her in the highest regard. She is an absolute delight to work with and her advice has always been vital and invaluable. I thoroughly recommend Tessa. She is superb."* **Director/Producer Ed Bye**
